Ben,

See attached for sites Region III is proposing to include on the Docket for Update #35 that are not in eDocket.

One of the sites is the former NIKE Missile base which we never settled on who is responsible – I have included it using Education as the responsible agency since that is the agency that owns the property (even if they aren't the ones managing the real estate transfer or responsible for the cleanup). We can let them respond and tell us whether they should be the identified responsible agency.

Another site is identified as Air Force being the responsible agency but it is an Air National Guard facility. We will let Air Force make a determination as to whether this site is a federal facility under their jurisdiction or not.
